Report on the DAE – IPA Sir C V Raman Lectures held recently

Indian Physics Association Mumbai Chapter in association with Guru Nanak College, Mumbai, organised the Department of Atomic Energy- C. V. Raman Lecture on Saturday, February 11, 2017 at Guru Nanak College.

Prof. Sandip Trivedi, TIFR delivering the DAE- C. V. Raman lecture

The lecture was delivered by Prof. Sandip Trivedi, Director, Tata Institute of Fundamental Research, on "SYMMETRIES AND THE BIRTH OF THE UNIVERSE. There was enthusiastic participation of the students and the faculty members.

IPA Kolkatta chapter in collaboration with Vidyasagar Evening College, organised the DAE – C. V. Raman Lecture by Prof Sibaji Raha on 1st March 2017. The topic of the lecture selected by Prof Raha was "Climate Change-Physics Perspective". It was a very interesting in depth view from the physicist perspective of the problem. Prof Raha stressed that the area below the Himalayas is likely to get affected as a result of climate change. There were
